The Test Oath. The bill which has passed both hous of Congress to repeal the test oath, is in

the following words: the following words:
That when any person, who is not rendered ineligible to office by the provisions of the Fourteenth Amendment to the Constitution, shall be elected or appointed to any office of honor or trust under the Government of the United States, and shall not be able, on account of his participation in the late rebellion, to take the test oath prescribed in the act of Congress approved the 2d of July, 1802, said person shall, in lieu of said oath, before entering upon the duties of said office, take and subscribe the oath prescribed in an act of Congress entitled "an act prescribing an oath of office to be taken by persons from whom legal disabilities shall have been removed," approved 11th of July, 1808.

The following is the oath prescribed by the acts of 1868:

the acts of 1868:

"I, A B, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all ememies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on tully discharge the duties of the office on which I am about to enter. So help me

There are persons who have had their disabilities removed by act of Congress, who cannot take the oath of 1862. The act of 1868 admitted these to office upon taking the new oath. There are others who are not disqualified by the Fourteenth Amendment, and, therefore, eligible to office, but who cannot take the oath of 1862. This act is to admit these persons under flexible Riproad companies, and any the oath of 1868. It admits no person who is disabled under the Fourteenth Amendment, and whose disabilities been removed. By the Fourteenth Amendment the ple of the United States restored to their political priviteges every person engaged, directly or indirectly, in the rebellion, except certain specified a synopsis of which we take from the person engaged, directly or indirectly, in classes. The law of 1863 prescribes an and that the person taking it has never been engaged in the rebellion, &c. Though all the rebels have been made eligible under the Fourteenth Amendment, except the named classes, this oath excludes one of the best articles of food whethel is them from holding any office. The Courier says:

The resolution was earnestly discussed by Messra J. M. Bennett, Chas. S. Lewis, Henry Brannon, Col. James Evans, Col. Benj. Wilson, N. Fitzhugh, S. A. Miller, Benj. Wilson, N. Fitzluugh, S. A. James Buchanan was a frequent writer in my old paper, The Lancaster Intelligencer and Journal, and in The Pennsylvanian. His diction was cold and unsympathetic, but exact, clear, and condensed. He was a treasure to with new ideas. He was a treasure to an hour with him that did not furnish me with new ideas. He was a treasure to an editor, because he possessed the rare faculty of throwing new light upon every subject in the shortest possible time. Ex-Attorney-General J. S. What a pity to see such gifts wasted in a strile over the grave of a former associate and friend! DR SCHENCK ADVISES CON-

NUMPTIVES TO GO TO FLORIDA IN WINTER.
Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feet that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy sonndness. The first and most unportant step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more Northern latitudes. Planta is a point I can recommend. A good hotel is kept there by Futerman, Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines.

lange had been badly diseased, but who, under
the bealing influence of the climate and my ned
loines, were getting well.

One hundrud miles further down the river is a
point which I would prefer to Palatia, as the
temperature is more even and the air dry am
bracing. Mellouville and Enterprise are located
there. I should give a deelded preference it
Mellouville. It is two miles from river of lake,
and it seems almost impossible to take cold
there. The tables in Piorida might be beath
and patients complain at times, but that the case
sign, as it is the case they generally increase in
each, and then the lungs must heal.

Jacksonville, Hiberaia, Green Cove, and many
other places in various parts of Florida, can be
asfely recommended to consumptives in winter

and where to persons whose lungs are affected even slightly is, to lay in a stock of Schenetc's Pelmonic Syrne, Schenetc's Seawed Tonic and Schenetc's Mandrake Fills and go to Florida. I recommend these particular medicines because i am thoroughly acquisited with their action. I know that where they are used in stret accordance with my directions they will do the wask that is required. This accomplished, nature will do the rest. The physician who prescribes for cold, cough or nightsweats and then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long.

My plan is to give my three medicines, in accordance with the printed directions, exception some cases where a freer new of the Mandrake Fills is necessary. My object is to give non-the stometh-to get tip a good appeties. It is always a good sign when a good appeties. It is always a good sign when a good appeties. It is always a good sign when a good appeties. It is always a good bod and with it more fless, which comes good blood and with it more fless, which is closely followed by a healing of the lungs. Then the cough loosens and abates, the creeping chilis and claumy night-sweats no longer prostrate and annoy, and the patient gets well, provided he avoids taking cold.

Now there are many consumptives who have not the means to go to Florida. The question may be abled, is there no hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter. With a temperature of about seventy degrees, which should be kept requisity at that point, and with the control of the
